THE NEW ESPLANADE.
Few measures that have come before the public attract greater interest than Sr Legarreta's project for beautifying our beach and extending the pleasurable promenade that at present stretches from the Mole to Mazzini's statue away out to Palermo.
That the project has caught the public favor none will deny, since everyone hopes to see it carried out; but there are certain difficulties in the way which M. Legarreta is bound to explain, since no one well sees how the promenade is to be carried over the Catalinas Mole, or the costly basins of the Water Works.
A promenade along the beach to Palermo would be one of the noblest of municipal improvements, and completely eclipse the Thames Embankment, and, as a work of such great magnitude as that proposed by M. Legarreta will necessarily require much time to accomplish, the best plan to adopt would be to construct the Paseo in sections. If, instead of starting for Palermo, we ran the esplanade out to the Boca, starting from the back of the Custom House, and call that the first section, we would at a very trivial cost endow the city with a magnificent promenade, unrivalled by some of the greatest cities in Europe, and, in carrying the promenade out in that direction, we would always be connecting a very important centre of our coastwise trade with the city. The land to be expropriated would be so trifling and the property down there so much improved that, in fact, the cost of the land would hardly enter into the estimate, since the beach, studded with washerwomens' holes, cannot be claimed as property; and although the potreros of the Boca to the river side are, we believe, private property, still a jetty or esplanade running along from the Custom House to the Riachuelo would give such a new value to all those dull potreros that the owners would be the most interested in the scheme.

The second section of the Esplanade should be from the Mazzini statue to Seeber's Mole, and the third section from the mole to the Gas House. If within a single generation we could accomplish these three sections, then many of us might hope to see dear old Buenos Ayres a second Antioch. What, however, would still more beautify the city than even this esplanade is the Lord Mayor's Boulevard from the Riachuelo to Caballito, and from thence to the Maldonado bridge—splendid burst up scheme; people have a right to ask the Lord Mayor what has become of it before they plunge into some new Utopia to beautify the forgotten Paseo Julio.

LONDON LETTER.
(From Our Own Correspondent.)
October 23, 1881.
The *Observer* of this morning mentions that the Secretary of the Great Southern Railway has received the following telegram from the chairman in Buenos Ayres—'The agreement with the Government is signed.'
We presume that information must be considered as fully confirming what we had previously known, that current ideas of expropriation were daily growing more faint under the personal treatment, we might say punishment, they receive from the vigorous secretary of the company. We had heard that nothing was yet decided, but that Mr. Parish was expected in England about Christmas. Meanwhile the London shareholders are serenely confident and made generally happy with their 8 per cent.
Argentine Stocks have been decidedly weak lately. It is fair to remember that foreign stocks have all been inactive, but Argentines surely have been affected by the news we receive by telegraph that the Minister of Finance has in contemplation a project to pay off the *Hard Dollars* at 105 and *Treasury Bonds* at 110, with a 5 *per Cent Loan*.
This, I need not say, is a very sore subject here, and, as you know, has given rise already to a correspondence in the *Times*, in which a gentleman connected with the Argentine Consulate-General figured magnanimously on the side of the British capitalists. I do not know if the project of the Minister of Finance be seriously entertained, but, if it be so, he may expect a stout resistance in London, where the terms are considered ludicrous. Treasury Bonds bear 9 per cent. interest, therefore, about 180 would be the redeeming price, with a 5 per cent. loan.
The French packet of the 25th of September brings us the news that gold payments are to be resumed in January. We wait for confirmation of the fact, but meantime the news has created more confidence, and will, no doubt, improve the Argentine Securities.
Dr. Jorge, the Commissioner for the new Provincial Consolidation Loan, known as the Baring Loan, is now in London. The amount is £4,000,000, but when the loan will be issued I cannot say, nor do I think it is known.
D. Jorge, as President of the Western Railway, is commissioned also to purchase material for that line.
Beyond the raising of the bank rates on the Continent, either in fact as in France and Amsterdam, or prospectively in Berlin and Vienna there is no financial phase worth noticing. Exchange in New York is easy, and the little pressure we have just experienced and the suddeness with which it was relieved, causes all old hands, and particularly alarmists, to doubt whether ancient rules in these cases were of any value; and to think of modern mechanical appliances and the numberless new conduits for the ebb and flow not exactly of bullion, but of its cable representative in transfers of balances of account between nations. For all that, we may see money before very long at 6 p. cent, that will perhaps be the first sure indication of a revival of trade in this country, which at present is acting as banker for other markets and has not yet half the pressure at home. Had the early expectations of the harvest been realised, money would now have been at 6 p. cent.
Since the proclamation of the Government denouncing the Land League, Mr Parnell and his fellow prisoners are treated less luxuriously; that is to say they are not to be permitted to issue manifestos from Kilmainham Gaol and are to be put in separate prisons.
I send you an extract from the address of Lord O'Hagan on the opening of the Land Court; and also an important letter from Archbishop Croke an old ally of the League, strongly condemning the Kilmainham manifesto and particularly in respect to the 'no rent' suggestion. You will see the Archbishop's definition of a 'fair rent,' apparently meaning the unearned increment over and above the comfortable feeding, clothing and housing of the tenant. As Mr O'Donnell has just said, if that is 'fair rent' we want nothing better.' And to confess the truth, if we reverse the hypothesis of the Archbishop, if a man is neither comfortably fed, clothed, nor housed, the only fair rent is none at all.
There is I believe a grand Irish demonstration to-day in Hyde Park, to protest against the tyranny of the Government. There was a smaller one last night under the auspices of Mr Hyndman and the English democrats in Trafalgar Square. It was an utter failure and the crowd, which would not listen to the speakers, finished up with 'Rule Britannia' and three cheers for Gladstone.
The extravagant and inopportune demands and conduct of the Irish leaders, their pure 'cussedness,' has lost to them the sympathies even of the English 'rough.' The English democrats such as Mr Ashton, Dilke and Mr Broadhurst have stated openly that it is impossible to work with some of the Irish members of the English Land League and other similar political organisations. Their own Archbishop, some of their own men like Mr Shaughnessy, have given them up as hopeless in their present state of mind; too truthfully reflecting the eccentricities of Mr Parnell, his sister, his cousin, and his aunts. If the Irishmen would only work with us rationally in the Land Question, Home Rule is by no means beyond discussion for most Englishmen, who have lately had their attention drawn so much to Irish questions, and who may fully acknowledge the evils of 'Landlordism' as it has existed in Ireland, are persuaded that the source of the blunders of each successive Secretary of State for Ireland, and the source of eternal mischief, is 'the Castle' and its antiquated vice-royal system of snobbery, officialism and corruption. One thing or the other; either Ireland shall govern herself locally but as an integral part of the Empire, or she must be made more thoroughly than she is, like any other district in the British Islands.

THE CUSTOM HOUSE ROBBERY.
All town, at least commercial town, was talking yesterday of this audacious robbery. It was first discovered at 8 o'clock on Monday morning by Adrian Tallaferro, one of the 'guardas,' who, when he opened the deposit under his charge found it all in confusion, with smashed and half smashed boxes lying about, and the iron railing which separated it from the adjoining stores twisted and bent in a fashion that left no doubt as to what had happened.
While Mr T. was informing the Alcaide of the state of matters, Mr Reguera, the chief of the rifled deposit, arrived for the business of the day. The police were at once called in and appeared in the person of Commissary Hernandez of the Second Section, who at once began the usual official 'indagaciones.'
The first conclusion arrived at was a very natural, if not a very brilliant one—viz, that the robbery was committed on Sunday; it was also decided, from the quantity of goods stolen and the number of boxes opened, half opened and smashed, that the criminals must have spent at least seven or eight hours at the work. Four different deposits were found to have been entered and sacked. There are two entrances to them, one on the street over which the Boca Railway runs, and the other on the outer face of the Semicircle. As the door in the street shows no sign whatever of violence, it is clear that the thieves must have entered by the door facing the mole, and which shows signs of having been forced.
In deposit 25 several boxes were found evidently cut open with a saw. The thieves made a careful selection in this deposit, their booty consisting of cambric pocket handkerchiefs, black cashmeres, high-heeled boots, and some 'gros' silk dresses. They then climbed up on the boxes and by sheer force bent the railing which separated them from deposits 26 and 28, and forced their way in. Here, after smashing open scores of boxes, they stole ten cases of beaver hats, two cases of black merino, a lot of percal, and an incredible quantity of French cigarettes, the total plunder from these two deposits reaching fully 2000 patacons. While riffling these deposits they came on a box full of funeral palls, a 'memento mori' that must have given their conscience a twinge, as the black stuff was found kicked about and trampled on.
From the traces found it is believed that the thieves carried their booty to the mole, where they had either boats or carts in readiness for it, but the first conveyance was probably the one selected, as driving carts up town would have been attended with almost certain detection.
The principal part of the goods stolen belonged to the following firms: Bates Stokes, Malmann, Torquist, Hardy, Harvey, Senet Portes and Bernasconi. Messrs Malmann have been the heaviest losers.
As regards the criminals it is considered that there must have been at least six or eight men engaged in the robbery. On Monday evening

TUDOR, equal in quality and flavour to Teas sold at $30 m|c and $40 m|c lb. Parties who have once tried it take no other. SOLD EVERYWHERE.

23 of the Custom House peons, who work in the rifled deposits, were arrested and put in solitary confinement. The Port Captain sent the steam tender Talita to the Maciel islands to look for the stolen goods, but nothing was found. Yesterday she was cruising about other islands known to be favorite resorts of smugglers. The merchants bear the loss in this case, the Customs regulations so being. They ought not to be so.

LATEST FROM RIO.

THE COFFEE EXHIBITION.

The first of the proposed exhibitions of coffee was opened on the 14th and inaugurated by their Imperial Majesties, in three saloons of the National Typography.

The object of these exhibitions is principally to afford the foreign consumer the opportunity of seeing what qualities of coffee Brazil can and really does produce, and of judging of their merits under their true character of coffee of Brazil and not of the various other countries to which it pleases the fancies or the interests of the middleman to ascribe the origin of the finer kinds to the disparagement of Brazilian coffees.

A secondary object is to enable the Brazilian producers to examine side by side and study the products of each other, and thence to learn useful lessons from the comparison of the coffees and the details of preparation for the market. And, by a happy thought, the facility of comparison has been extended also to the most approved qualities of foreign growth, so that now in the presence of the foreign rivals of their products the Brazilian planters may perceive for themselves the strength of the competition in quality and preparation they have to meet and thence to derive comfort or stimulus to improvement.

The exhibit of Brazilian coffee comprises about 1,200 samples, contributed by about 1,000 planters of the provinces of Rio de Janeiro, Minas Geraes, S. Paulo and Espirito Santo, chiefly of the two first provinces; and the weight of the coffees, which will be exhibited and distributed abroad in some of the chief centres of consumption, is about 60 tons. The foreign samples consist of East Indian, Ceylon, Javan, Phillipine, West Indian, Central American, Arabian, &c., and already one important factor in their high appreciation has been learned in the observation of their greatly superior mode of packing for the consuming market. No doubt also that careful study and comparison will give other useful hints, and we may be assured that in all the projected further annual exhibitions here foreign coffees will be considered an essential part of the programme of exhibits.

Of the value of the lessons to be derived from the present exhibition, it is too soon to treat, but no doubt the whole subject will be exhaustively considered in the report of the jury of experts; meantime, the thanks of the coffee planters, and indeed of the whole nation, is only the just meed of the Centro da Lavoura e do Comercio for the great service of its organization.

EDITOR'S TABLE.

We have a treat for farmers in our office, not the Patagonian whiskey, which has turned sour, but samples of the new wheat crop, which we received yesterday with the following letter:—

'Dear *Standard*. Knowing the great interest you bear towards everything connected with our colonies, I beg to hand you herewith 3 samples of wheat from Olavarria, No. 1 in wheat from bad old seed harvested on the same land, and comprises about 50 arr. of the 'sementera', it will give a very poor crop if any. 2 is from seed bought in Azul, but evidently from the same colony, though not harvested on the same land. this seed will give half a crop perhaps. 3 from seed 'Costa' carefully selected in B. Aires, promises to give a splendid crop.—*Trigo*.

The terrible history in connection with the fire in Montevideo was much commented on yesterday. It was the deliberate act of a madman, a Spaniard named Vergas, a bootmaker. Some few weeks ago his only daughter committed suicide because he would not allow her to marry the young fellow of her choice: this preyed on Vergas's mind to such an extent that it culminated in madness, and on Sunday he deliberately set fire to his premises, and every stick, boot and shoe in it was destroyed. While the place was blazing the unhappy man walked down to the sea shore and blew his brains out. There is something appallingly rotten in the moral state of a society in which dreadful acts provoked by despair are so frequent as they are in Montevideo of late.

We have been favoured by an old subscriber with a copy of the *Welshman* of Oct. 7th which refers as follows to a paper contributed to the *Contemporary Review* by our brother, Mr M G Mulhall: 'Mr M G Mulhall supplies an able article on 'The Carrying-Trade of the World,' in the course of which he seeks to impress on the minds of English readers the following points, which, he says, are little known to them, and, therefore, not properly appreciated by them, namely, that '(1) the increase of the carrying trade has been beneficial to mankind, and has been mainly promoted by Great Britain; (2) that steamers have five times the carrying-power and seven times less risk than sailing vessels; (3) that British preponderance on sea increases every year, and that the ship-building trade is mainly in our hands; (4) that British sailors carry most merchandise per man and that we can work cheaper than any other flag; and (5) that maritime disasters are relatively diminishing every year, and that the ratio of British vessels lost is much below the general average.'

The Rev. James Smith will preach on Sunday next, in Mrs. Sanders' Schoolroom, at Quilmes at 4 p.m.

We return our warmest thanks to an old and valued friend who has kindly brought us from home (per Trent) a copy of Sir Charles Gavan Duffy's famous work, 'Young Ireland'. We anticipate keen enjoyment in reading it. It is beautifully bound and got up, the publishers being Messrs Cassell, Petter, Galpin & Co. of London, Paris and New York.

The Chilian papers to hand report no very extravagant enthusiasm on that side of the Andes at the signing of the Boundary Treaty with this country. There is no talk of any public rejoicings there any more than here, and the subject seems to have been let drop by all parties. There is no general news in the papers that the telegraph has not taken the bouquet off.

A leading British subscriber residing at Flores requests us to call the attention of the Manager of the Anglo-Argentine Tramway to the somniferous conduct of his 'mayorales', who are generally deeply engaged in flirting with some pretty 'china', or reading the latest news from Ireland to the driver, or gazing on vacancy when they are hailed by the public. Our subscriber has go a bad sore throat, which will not be cured with less than a ton of Keating's Lozenges, from vainly shouting at the top of his voice at the 'mayorales' of this tramway, to try and coax them to stop and take him into town, or home to dinner.

Another subscriber sends us another complaint, not about 'mayorales', but about the meat carts, which are to be seen at all hours of the day about the streets, with their repulsive-looking freight, whereas the early, very early, morn is certainly the proper time for their traffic. Complainant has been so seriously affected by the sight of these carts and their filthy drivers that he has turned vegetarian and registered a vow never to touch a beefsteak or mutton chop as long as he lives. His diet is now purely vegetable and he is rapidly sinking into an early grave. It is really too bad that newspapers should lose their best subscribers through the shortcomings of the city authorities.

It is refreshing to meet now and then a man who does not care a snap of his fingers for Mother Shipton or all the German or North American savans that have ever predicted the end of the world. An old and esteemed camp subscriber paid us yesterday up to the end of 1883! Such subscribers deserve to live till the end of the world, no matter how far off or near that rather important event may be.

According to Rousseau's assertion, there is neither rhythm nor melody in French music, for which he was burned in effigy by the indignant actors and musicians of the opera.

The news came yesterday that Julio Barrientos has escaped from the police who were chasing him and taken refuge in the 'sierras.' Nothing is said about his famous chesnut horse, so we suppose the gallant brute, more fortunate than Black Bess, has survived the desperate race.

They had a roasting day in Rosario on Sunday, thermom. 95 in the shade. The side walks were so hot that people with thin boots danced along like hens on a hot griddle.

The Judges of the Supreme Court have politely declined the offer of telephonic facilities to any extent from one of the city companies Wise men. Except for commercial men, the telephone, like most modern improvements, is not an unmixed blessing, though, no doubt, extremely useful.

The Coliseum will be full of youth and beauty to-night, to witness the distribution of prizes to the pupils of Miss Colclough's Greek College. The prizes are extremely handsome and valuable, the gold medal being a veritable masterpiece of the jeweller's art.

Messrs Lacroze, the indefatigable tramway empresarios, have now a scheme for building a mole at the Retiro where lighters can discharge, or load, cargo which the tram-cars will whisk up or down town in a jiffey. The idea is good and practicable.

We regret to announce the death yesterday of Dr Villegas, of the Supreme Provincial Court, who had been ailing for some time.

We give particulars of the Custom House robbery in another column. The Yellow House was also broken into on Sunday night and ten thousand paper dollars' worth of tight boots made away with.

The latest European papers to hand reveal that a Reims workman went to Paris on purpose to shoot Gambetta, and fired a shot at a gentleman with a red-ribbon in his button-hole, who he mistook for the great man. The gentleman so honored had a narrow escape, the bullet cutting a lane through one of his whiskers. From Russia the news is that the Nihilists have all returned to St. Petersburg for the winter and have changed their tactics. 'Down with the landlords!' is now their cry, and they are also exciting the people against the Jews.

At the opening ball-fight at Montevideo on Sunday last *ten* horses were killed. The bipeds engaged in the shameful slaughter escaped with a slight prod given to one of them by a dying bull.

Baron Grivel, the French Admiral of the South Atlantic station, came up yesterday from Montevideo. It is a curious coincidence that his father was Admiral on this station 50 years ago. Distinguished men in any walk of life rarely have sons who equal them in ability, but Admiral Grivel appears to be an exception. We feel great pleasure in saluting him.

There will be an exciting boat race on Sunday next from the Catalinas to the Custom House mole, the competing boats being the new 'falua de gala' of the Capitania and the captain's gig of the gunboat Uruguay. The stake is a very serious one, 2000 pats, laid by the builders of the Capitania boat, and accepted by the officers of the Uruguay. If the latter should lose, there will be an unpleasantly big hole made in their pay for some months to come.

The old mole, now without that Hole which made it as famous for many years as the Black Hole of Calcutta, is a pleasant promenade now after dark, as it is well lighted with gas and people can enjoy 'the breezes that blow through the trees' and across the bosom of the Plate without fear of being robbed or breaking their necks; both of which contingencies were probable enough in that quarter after dark but a very few years ago.

The Pacific steamer Arancania brings dates from West Coast to 8th inst. In Lima the Peruvians laid a mine to blow up the barracks of the 2d Chilian regiment, but it was discovered in time. Admiral Lynch shut up the *Orden* newspaper. General Baquedano refuses to resume the chief command of the army in the field unless he gets 'carte blanche,' and President Santa Maria wont give it to him. The Chilian papers clamour for explanations from Government as to the mobilization of the Bolivian army and the generally serious aspect of affairs in Peru. The *Patria* says that President Calderon was arrested to prevent his going to Arequipa and joining the revolution, counting on Minister Hurlbut's moral support.

We regret to hear that the Minister of War was slightly indisposed yesterday and unable to attend the Government House.

A sudden delusion has sprung up in the town of Mercedes as to that place having an excellent chance of being selected as the new Capital of the province and the worthy towns, folk are shelling out subscriptions to promote the wished for consummation as fast, or even faster than the Spaniards are subscribing to buy Gibraltar from John Bull Esq. We suppose it's all the effect of the hot weather.

THE MEAT CARTS.

November 21, 1881.

To the Editor of the *Standard*.

Dear Sir,

We all note with pleasure, and no small degree of pride, the rapid pace at which our city is going ahead in every way.

Don't you think though, Mr. Editor, there is room for improvement in the appearance and construction of those nice butcher-carts we see jogging along over the 'petrified kidneys' of our beloved city?

Cleanliness is the order of the day, as far as butcher-stalls go, but when we see one of these frightful constructions, driven by a very fiend clothed in dirt and blood, come along, we shoot round the nearest corner, not only to avoid the sight, but, also, to escape the task of hewing our way through the almost solid atmosphere which surrounds the cart in which is our food.

Could not a law be passed to avoid this ungainly sight? As, for instance (excuse the suggestion), no car, modelled after Noah's ark, which has not been cleaned since its construction, will be allowed into town before being scraped and repainted.'

Yours truly,

Krux.

ON 'CHANGE.

Nov. 22nd

Patacones	25.10
Cedulas A	98½
National Bank Shares	104
Old Gas Co. Shares	1,300$

This was a much quieter day on 'Change than any for the last week. Whether the bears have really exhausted themselves or not is the question; evidently they held back to-day and left the market to itself, and ergo prices hardened. Gold rules even and quiet at 25.10, but more sellers than buyers; people who have to buy gold to close the month's liquidation will probably have to pay 25.10, whilst those who have to sell will find it hard to get over 25.05, and so the market stands.

Cedulas ruled rather firmer spite of some large cash sales; holders turned into Bank Shares. There is no speculation whatever going on in the stock, but the belief is that as the emission of Series A is stopped, by the end of the year that Series will be at a premium.

National Bank Shares kept very quiet today, 1,328 shares sold cash, opening at 103 and closing at 104; for end of month 2400 only sold, opening at 103½ and closing at 104½, and for December 4oo opening at 105½ and closing at 105¾, total days sales 4128. Old Gas Shares one sale, 40 shares at 1800, buyers at that rate.

Mr Graham H Carber, from the Cape of Good Hope, and Mr Edmonson, who has arrived from England, were welcomed on Change today.

The Argentine Gas Co. at Almagro we hear has obtained the contract for lighting the Exhibition at the Plaza Once, which is an important business for the shareholders.

Don Juan Mignaburu is evidently determined not to allow the grass to grow from the ashes of his burnt up corralon. Fity men are hard at work, one galpon is rebuilt, and although the damage by the fire is fully 400,000 m/c; in a week all will be rebuilt and business resumed. We all remember how long it took after the Baoquet Hnos. fire to rebuild on the site where now is the great Mallmann warehouse, but time is money at the South Plaza.

Mr Bankier, one of our leading money brokers was enveloped in friends the entire day, he has returned from London in the Trent, and looks much improved by the voyage.

Exchange active, we hear of a very large business arranged by a leading German house with the Provincial Bank in francs on Antwerp at 5.30.

At both North and South markets this morning large wool arrivals, close on 100,000 arr. between the two plazas, but the wool is coming in too fast for the buyers and some had to be sent to deposit.

Messrs Bradley & Hillner sold the following in the south market.

For Dec. 31st 400 shares 105¾-106-¼-½
Sales, 4,028

Old Gas Co. Shares—

For cash 40 shares at $1,800

There was a slight reaction in the 'azzione' market at afterhours; outsiders were buying strong when the 'Rienzi' of the ring entered and bought 500 shares at 105½, which at once put the market to 106, at which rate 150 shares bought for to-morrow. The market has a decided upward turn, and the Italians can put prices up to their old figures whenever they think proper. It is rumoured that the Syndicate not only still exists but took up a large sum of money to-day merely for the purpose of keeping others from getting it.

Cedulas and gold nothing doing at afterhours.

Mr Ricketts, who has arrived back from England, was welcomed on Change.

Francs on France advanced to-day, 500,000 passed yesterday at 5.29, and 500,000 passed to-day at 5.30.

A large vessel with 4000 sacks of rice comes alongside Seeber's mole to-morrow.

Mr Garraghan sold a splendid lot of wool in South Market, Mr Redmond 800 at 95, and in Plaza Once sold.

800	arr. at	80
400	lambs	80

Mr Casey sold—

1500	ar. at	75
1000		83
1500		78

Mr Casey will sell Dr Frias's wool from Mercedes to-morrow a splendid lot.

Messrs Duggan sold to-day—

The special Bolsa Committee will publish to-morrow notices asking for subscriptions to new Bolsa stocks, 100 pats per share.

To-morrow Mr Lincke begins to take up cargo of 'Pride of Devon,' vessel came up today from Montevideo with divers etc., soon we shall have the wreck removed.

Messrs Hilcken, Fay, Luders, Xhoffer, Sands and Kirschbaum, who have returned from Europe in Nüremberg, were welcomed on 'Change by their numerous friends.

The Nuremberg leaves on 27th and has already nearly a full cargo engaged for Antwerp and Bremen direct 40s and 1½ o/o.

The Sales at afterhours were—

Gold—

For cash 10,000 at 25.10

National Bank Shares—

For cash 300 shares at 103½-104-105-½-106
For Nov. 30th 2,500 shares 104½-105-½ to 106

For Dec 31st 500 shares 105½-107-½

The following is an extract of a letter addressed by Dr Don Lucas Gonzalez to the Governor of Sta Fe, giving particulars of the sale of 800 square leagues of the public lands of that Province, and of his efforts to have said lands occupied by colonies:—

"The total amount the Province of Sta Fe owed Messrs Murrieta & Co. was no less than $189,217 6s 0d. I remember when I arrived in Sta Fe for the purpose of trying to settle this debt, everyone sneered at my ideas, considering the question too intricate to be closed; but trusting in the good faith of the Government, I proceeded to work, being determined to leave no stone unturned in order to come to a satisfactory arrangement. The sale which has just been concluded is the sure forerunner for future colonies which will, for their produce, require a railway to connect them with the Parana. All colonisation scheme will, however, meet with keen competition from the agents of the U. States, Canada, Australia, &c. I have published a pamphlet in English, giving every information regarding Sta Fe, and I intend to have it translated into other European languages, as I think it may be safely stated that Europeans are, as a rule, rather ignorant of the advantages to be found in the Province of Sta Fe."

At the South Market some business done at the following prices:—

21 waggons with produce arrived.
13,750 ar. of wool arrived.
Produce in general flat.

The death of Mr James Rothschild is announced by telegram; we suppose he was one of the Bankers.

The Exhibition works at the Plaza Once are progressing apace, and the contractors seem to improve their hands and make them of more solemn structure; the roofs appear to be at a less elevation, and we suppose that every possible care will be taken against a repetition of the accident.

The Commercial Judge having declared the Argentine Bank bankrupt has on reconsideration rescinded the order, which amounts to a further extension of the old moratoria: the opinion in the market is rather opposed to that of the Judge, and the sooner this broken down concern is wound up the better.

A new export staple of much promise is fish oil, which is each day increasing in volume, and will soon rank as one of our great staples. We believe the oil comes from some factories on the South coast: but the supply of fish down there is something wonderful, and in some places on the coast the 'gauchos' make a weir when the tide is high, which gives them a great haul when the tide runs out. Alongside these sounds where fishes in millions can be caught are large salt mines, which is a double convenience, but the want of labor checks the industry.

Our colleague, the *Libertad*, points to the scandalous increase of the passage tax. No one seems as yet to have seen the proposed new law, but if it is as our colleague states, then the taxes on commerce will be increased next year fully 500 o/o, which really seems impossible.

The robbery at the Customs Deposits is the talk of the whole market; we give in another column all the particulars so far at hand; the house of Mallmann seems to have been the largest owners of the missing goods, but it is not probable that the houses will suffer any loss, since the Government must be responsible for goods in its own deposits. It is thought that the robbery must have been perpetrated by people and others who we know the ins and outs of the Custom House, and the goods must have been placed on board lighters at the Custom House mole.

The National Government has put up a resguardo house at the Boca of San Blas and stationed 6 sailors there; the Admiral is about to send down a cutter to the Bay to survey and buoy it.

Exchange in Montevideo appears to be more active, £ 5,000 passed yesterday at 52½.

It is believed that now that the Provincial Bank will give paper for gold at the rate of 25 m/o to the patacon; all the banks will send in their ounces and other gold coins that have been so long in the vaults of the banks. It is said that the stock of ounces in the market reaches 200,000, and the Provincial Bank will doubtless send all these coins to the Mint, where they will be recast and coined into graceful and current Argentines. Thus the movement will result in much advantage to the market, and supply it with so much more fresh capital.

The mails from Rio bring the following news:—

"To a petition of the U. States and Brasil Steam Ship Company for payment of back subsidy to the amount of 183:183$ the Minister of Agriculture has replied that the reasons for suspension still prevail in regard to that subsidy, to which the contract of Sept. 17th, 1881, does not apply, but that the Government still considers it a duty to pay the amount when enabled, and, if necessary, to solicit a credit for the purpose.

The sale of another Sauce Corto estancia is reported, 8,000 hectares for 588,230 m/c.

One may gather the discount on some of the Montevidean stocks when they read that at the last amortization of the Deuda Amortizable 16,000 pats amortized 102,900 pats.

The *Times* publishes the following:—

"The arrest of a war steamer,—The Board of Trade have placed officers on board a new turret war vessel, which is lying at Jarrow Slake on the Tyne, as they believe that she is destined for the Chilian Government. She was originally one of three turret war vessels built for the Chinese Empire. Two of them were manned by Chinese crews, after taking in their armament at Sir William Armstrong and Co's, Elswick Ordnance Works, and sailed to their destination. It was understood at the time that the vessel was sold by the Chinese Government to Chili, but she laid off Messrs. Witchell and Co's Works, her builders, at Low Walker, until a month ago when her fitting out was completed. She has her flags &c., it is said, no board, but no armament. She has not any crew, neither has she stores. It is pretty clear that she has not been handed over to the Chilian Government, but it was understood that she was intended for them. The transaction, if it is completed, would probably be between the Chinese Government and Chili as the former first ordered her.

"A circular has been issued by the secretary of the Central Argentine Land Company (Limited) stating that an extraordinary meeting will be held on Thursday, the 27th inst, for the purpose of submitting to the members, and, if approved, passing the subjoined resolution:—'That the directors may, if they think fit, at such time or times as they may determine in each or any current year, declare an interim dividend on the shares or stock of the company to be paid to the members thereof on account and in anticipation of the dividend for the current year, such interim dividend to be payable within one month after the declaration thereof.'"

STATE OF IRELAND.

The owners of property, magistrates, and other loyal classes, without distinction of creed or politics, are promptly and cordially responding to the appeal of the Government for support in restoring order and maintaining the Queen's authority. Several county branches of the Property Defence Association have been formed since the Prime Minister's speech, and other meetings are to be held to give expression to the feeling of the loyalists.

A meeting of landowners and others interested in land was held in Dundalk yesterday, Viscount Massereene in the chair. Among those present were Lord Clermont, Lord Bellew, Sir J Robinson, Colonel Fortescue, Messrs J Murphy, G Knaggs, F Chester, J G Biggar, J R Garstin, F Filgate, W D Filgate, L Lee-Norman, A Brush, C Woodhouse, A Henry, T Macartney-Filgate, D Browne, W Browne, W Dolling, R Trench, R Smith, T J Thomson, R T Balfour, J F Foster, Vere Foster, T M Richardson, H S Smith, W Robson, G P Stewart, R T Montgomery, A Macan, W Butler, G Pentland, R Quin, E Tipping, A H Wynne, C M'Mahon, A Newcomen, J Wright, G Hamilton, E G Dobbs, and Rev. R Scot. The following landowners of the county, though not present, were represented by their agents, whose names appear in the above list—Earl of Roden, Earl Russell, Lord Carlingford, Lord Rathdonnell, Dowager Lady Rathdonnell, Sir A Bellingham, Sir C Foster, Mrs R M Clintock, Messrs J Barlow, B T Balfour, W Ruxton, W O'Reilly Dease, L Upton, Rev. H Stobert, Colonel Burnaby, Messrs F J Foster, M Clive, C B Marlay, and H S Singleton. Letters of apology for non-attendance, but expressing sympathy with the objects of the meeting, were read from Colonel Taylor, M P., Major Hall, the Rev. W Brabazon, Messrs H A Hamilton, J Heney, G Harpur, Percy Fitzgerald, and others. Resolutions were passed similar to those adopted in other counties, declaring that they held the Government responsible for the enforcement of the law and the preservation of the public peace, and expressing satisfaction at the measures which are now being taken to establish order, which they trust every loyal man will assist in restoring, also promising to accept the Land Act in a loyal spirit, and agreeing to contribute a percentage out of their property to support the association. They also deprecated the intimidation which has been organized in the county against persons willing to pay their rent.

The *Waterford Standard* gives the following description of the interference with the Curraghmore hunt, already reported in the *Times*:

"On Thursday Lord Waterford and some friends were out cub hunting at Mr Lalor's, of Cregg, near Carrick-on-Suir. After they had had about two hours' excellent sport, they were surprised by the ringing of chapel bells and the blowing of horns. Immediately upon the signals being given, a mob assembled, numbering about 200 persons, consisting of farmers, farmers' sons, and servant boys and women, who surrounded the wood, shouting and pelting them with stones. Lord Waterford determined for some time to continue the sport, and when he rode up to disperse the crowd they sneaked away or hid from his view; but when his back was turned the stone throwing was renewed, and some of his hounds were stabbed with pitch-forks. Women and farmers' female servants collected and carried the missiles in their aprons, and supplied them to the men, who flung them at the members of the hunt. When Lord Waterford learned that his hounds had been stabbed, he directed them to be collected and abandoned the chase. When they got out on to the road and were on their way home, Lord Delaval Beresford, his lordship's brother, was struck on the back with a stone. Mr Lalor was also assailed and obliged to retire from his own property. This disgraceful mission has been carried out under the auspices of the Land League, to the almost incalculable injury of farmers, horse breeders and others. Landlord absenteeism was long denounced as the curse of Ireland; now it is clamoured for as Ireland's only panacea. Lord Waterford, in consequence of this conspiracy against a sport which was formerly encouraged by farmers, and afforded recreation to all who wished to join in it, has summoned a meeting of the gentry, to be held at the Imperial Hotel, Waterford, on Tuesday next, to consider the desirability or otherwise of continuing the hunting of this county. Possibly his next consideration will be whether he will remain in the country, or order his stud and hounds to England. We understand the Land League had given orders that similar attacks should be made on the party at Tory Hill and Pembrokestown, and that the destruction of foxes by shooting them has been commenced in some parts of the county. On Monday last a fox's head was found nailed to a post on the Railway bridge near Fiddown."

To this account it may be added that Mr Parnell himself went out hunting last season with Lord Waterford's hounds. The hunting in the county Kilkenny has, in consequence of the action of the Land League, had to be given up. In Kildare the League has given notice, that if either the Marquis of Drogheda, the Earl of Mayo, Lord Cloncurry, Mr John La Touche, or Mr William Blacker, appear in the hunting field, the hunting will be stopped. The above named gentlemen are the principal landowners in the county, and are constantly resident on their estates.

GREAT PROTECTIONIST MEETING AT RIO.

A meeting of members of the Commercial Association was held on the 9th, under the presidency of Visconde de Tocantins, to consider the following motion laid over from September 24th:

"That the Directory petition the Minister of Finance to withold the promulgation of the new customs tariff and await the exhibition of native manufactures, for the purpose of obtaining bases for an enquiry needed for acquaintance with the state of the country's manufacturing enterprises, and, with the result of the enquiry in hand, of drawing up a tariff to furnish them with the protection they require for their development.

"To petition the Legislature for a law protecting coast navigation and shipbuilding, whose decay has greatly injured the interests of trade and those of the country generally."

Sr Lucrecio Fernandes seconded the motion, as he thought various manufactures of the country needed, like children, to be fostered and protected, to enable them to grow strong and hereafter withstand foreign competition. But he thought the motion defective and proposed the following additions:

"1st. Repeal of the law of August 22, 1860, and the enactment of a liberal one freeing limited companies from government dependence and tutelage, and requiring only the registration of their statutes when in accordance with law.

"2d. Great naturalization, with the requisite plenary freedom of worship.

"3d. Gradual cessation of imperial and provincial taxes on exports of products to foreign countries.

"4th. Cessation of interprovincial taxes on imports and exports of native products.

"5th. A tax on all waste lands within 50 kilometers of Rio, and within 25 kilometers of the provincial capitals, or their expropriation for the purpose of settling them with immigrants desirous of leasing or purchasing them.

"6th. A direct tax on incomes of 1:200$ and upwards.

"7th. Municipal taxes on the consumption of native products, in Rio and the provincial capitals.'

Commendador J. J. Duarte would vote against protection, which merely taxed the many for the profit of the few. Free trade was the necessary condition of the development, wealth and prosperity of nations: and it was foolish ta ask the Commercial Association to petition for dearer freights, higher prices and more difficult transport.

Mr Cert lamented that the discussion of the interests of petty manufactures was delaying the promulgation of a tariff which corrected errors of the tariff of 1879.

Sr Rodrigo de Mello e Souza thought the introduction of labor the great need of the country.

Sr Wenceslao Guimaraes desired the early promulgation of the Tariff. He would not object to the enquiry, but believed it would show protection unnecessary. He was opposed to repeal of the existing legislation on the coasting navigation, as the decree opening it to foreign vessels merely accepted a fact, that of the supersession of sailing vessels by steamers in the coast trade.

Sr Azevedo would vote for the enquiry, which would not cause so much delay as to injure trade. Labor was not a great need, if means were employed to utilize the idle hands in the cities. As a rule, immigrants did not employ themselves in agriculture, but with a moderate protection to manufactures immigrants would find prompt and lucrative employment. A small protection to cotton cloth manufacture had caused the springing up of a great many factories in Brazil which have produced better and cheaper products than the foreign article. (Then why ask increased protection?)

Commendador Malvino dos Reis sustained his motion from patriotic motives. History showed that protection to the manufacture of fabrics was necessary to the progress of a people. England protected her manufactures and shipping until she had thereby destroyed her rivals and acquired supremacy, and all nations should follow her therein. Hitherto in Brazil commerce had been consulted in the drawing up of tariffs and it was only just that manufacturers should also be heard. As to the coast trade, the results of absolute freedom had been negatived. The cheapness of the freights was not due to foreign competition but to State subsidies. The positive result of freedom had been the ruin of the shipyards that gave livelihood to thousands of persons, and now the navy has no longer a nursery of seamen. However, he did not ask repeal of the existing laws but a moderate protection to shipbuilding, by premiums, as in France, or by some other mode.

Mr Cagmari thought protection a dead thing, and that no thinking man could now be other than a free-trader or opportunist. He himself was manufacturing and had commenced with thread, which he neither imported nor could consider a prime material worthy of protection. As to the United States, its prosperity was not due to its manufactories but to its farms. In regard to the coasting trade, the most that could be done would be to give a bounty to shipbuilding.

A motion to appoint a committee to report on the two motions was negatived, but no vote could be taken on them, so many members having left, and the president has, therefore, convoked another meeting on the 16th, for the purpose of voting on them.

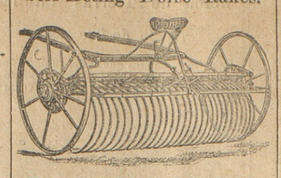
Howards' Self-Acting Horse Rakes.



The above were the first Self-acting Horse Rakes which secured public favour, and owing to their extraordinary success various attempts have been made to imitate them, but J. & F. HOWARD'S simple brake principle—Patented—is so instantaneous in action, that all the contrivances introduced by others for effecting the same object are in comparison but complicated expedients.

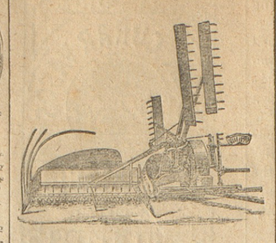
OOOO, 22 teeth, 5in. wrought wheels, 10 feet wide, weight 6 cwt.

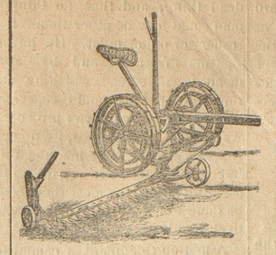
Howard's New Patent Simplex Mower.



J. & F. HOWARD'S Simplex Mower is one of the lightest machines ever produced. It is from its construction remarkably strong, and has been found to be capable not only of cutting the heaviest crops, but of standing the roughest usage. J. & F. HOWARD'S patented principle of *open gearing* is adopted. This gearing, among other advantages, is light in weight, of great strength, and not liable, as other gearing, to get clogged with the cut grass, there being no cogs to catch it, and no shield therefore is required.

With two Knives, Spring Seat, and Tool Box, containing all requisites for use in the field, weight 6 cwt.

Howard's New Patent Simplex Reaper.



J. & F. HOWARD'S Simplex Reaper is in every way constructed to meet the demand for a light, but strong Reaper. It has a large travelling wheel, and having the fewest possible wearing parts, its value, especially where repairs are difficult to execute, can hardly be overstated. The experience of several harvests with large numbers of these Machines, both at home and abroad, and the distinguished place they have obtained in public trial fields, have fully demonstrated their superiority.

With two Knives, Seat and Tool Box, containing all requisites for use in the field, weight 10½ cwt.

The above Machines kept in Stock by the Principal Hardware Merchants.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching twopence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blancmanges, &c., at half the usual cost, and in much less time. The hens had better be cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

—o—

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharmaceutical Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
